

ZX10R
FENDER ELIMINATOR
- RU27225 (2004-2005)

We at Rumble concept encourage all installations to be performed by a professional. If you choose to install this product, please read all instructions and take all appropriate safety measures to ensure the proper and safe installation of your new fender eliminator.

Before installation:
our fender eliminator have been designed for modification purposes, we are not responsible for the use or misuse of any products, or verification of the local department of motor vehicles.

Tool needed:

Allen Key 4mm
10mm Box

Included in the kit:

1 Fender Eliminator Bracket
1 Licence plate light
4 Allen screws + nuts

1. Remove the front and rear seat.
2. Remove the stock mud guard, you need to unscrew the 4 nuts under the tail piece.
3. Plug the flashers. We suggest you to cut the wires before the connector and re-use it.
4. Install the Fender Eliminator at the place the mud guard was. Use the 4 Allen screws and the nuts included in the kit.
5. Re-install the rear and front seat.

***For further assistance or information, we may be reached at info@rumbleconcept.com.*

***After any installations or modifications, the fender eliminator not returnable. We are not responsible for any damages to the part during the installation process, or to the bike (including the stock undertail part).*
