We at Rumble Concept encourage all installations to be performed by a **PROFESSIONAL**. If you choose to install this product yourself, please read all instructions and take all appropriate safety measures to ensure the proper and safe installation of your new Fender kit.

Before installation: our fender eliminator have been designed for modification purposes, we are not responsible for the use or misuse of any products, or verification of the local department of motor vehicles.

Included:

- 1 Fender Eliminator Bracket
- 1 LED Licence plate light
- 2 Nylon license plate bolts/nuts

****After any installations or modifications, the fender eliminator not returnable. We are not responsible for any damages to the part during the installation process, or to the bike (including the stock undertail part).**

1. Remove front and rear seats.
2. Take off the left painted tail section to un-plug wiring.
3. Remove the mud guard with the 4 bolts.
4. Prior to install your new bracket mount your license plate light to it .
5. To drive the wire you will have to drill a hole of 1/8" just under a relay box (see pics A & B)
6. Remove on both side the rear peg bracket and Install the Fender Eliminator in between the bracket and the subframe with the 4 stock bolt
7. Plug your new licence plate light.
8. Put back your seats in place.
9. GOOD RIDE...
